2016 SEAOSC SCHOLARSHIPS

The Structural Engineers Association of Southern California (SEAOSC) is pleased to announce the **2016 SEAOSC Scholarships**. SEAOSC will present scholarships to outstanding university students from select schools in the Southern California area who are pursuing a career in Structural Engineering.

In previous years, scholarship recipients have received awards ranging in the amounts of \$800 to \$2,000. This year's awards may vary depending on the generous contributions from the structural engineering community.

Criteria for nomination include excellence in both academics and leadership with the desire to pursue a career in structural engineering. All students who wish to be considered for a scholarship must submit the following information no later than **5 PM on Friday, December 18, 2015:**

1. A statement of purpose for your future career in structural engineering (two pages maximum);
2. A resume of relevant job experience, achievements, and/or activities
3. An unofficial transcript
4. Optional, but highly encouraged: a letter of recommendation from a structural engineering professor

Please email all submittals in PDF format, along with your contact information, to nathanjo@gmail.com. The winners will be notified by **January 11, 2016**.

The scholarship awards will be presented on **Wednesday, February 3, 2016** at the annual SEAOSC Student Night. All civil/structural engineering students and faculty are invited to attend the event free of charge as guests of SEAOSC. Scholarship winners will be **required** to attend the event in order to receive their rewards.

If you have any questions, please contact:
